WORLDWIDE ENTERPRISES

December 21, 2010

Christine C. Quinn  
Speaker, New York City Council

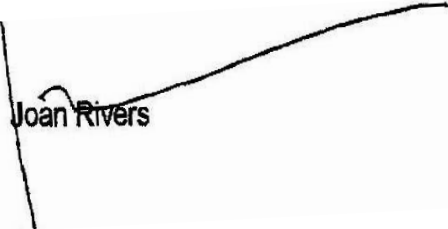

Dear Christine,

I'm thrilled to learn from my friends at PETA that two terrific animal bills got a hearing on Friday: the Licensing Bill encouraging people to fix their animals and the Tethering Bill prohibiting people from chaining animals outside. I hope this Tethering Bill passes not just for the sake of the poor dogs tied up outside in the cold, but for the sake of the sons of bitches\* who do this—because what I'd do to the creeps would be far worse than what any police officer would do!

I've always admired your work on gay issues. I just wish more animals were gay—people would pay more attention!

Thank you for helping get these long overdue laws on the books. If I can be of any assistance, please let me know.

Sincerely,

Joan Rivers
