

# SOME FOOD FOR THOUGHT

**Did your pork, ham, or bacon come from a farm that ...**

- left injured piglets to die slowly, just out of reach of their mothers?
- ignored rotting corpses teeming with maggots on the floor?
- threw piglets through the air after cutting their tails off without any painkillers?
- forced pigs to live just inches above a reeking, backed-up manure pit?
- kept pigs in sheds so dilapidated that piglets fell through the floor and into the manure pit?
- crammed pigs with abscesses and injuries into crates so small they couldn't even turn around?
