

# IT'S TIME TO STOP KILLING ANIMALS FOR FOOD

This is a real individual, with thoughts, fears, the ability to feel love for his mother, his friends, his life. He was raised in filth, never treated as a living being but as a “thing,” then forced onto a truck, scared and confused, not even knowing what a truck was. Now he is about to lose his life in a place where blood and offal are spattered on the floor and walls, and he can smell the fear all around him.

A recent study found that slaughterhouses didn't consistently stun animals before

hanging them up by the legs and dismembering them, causing excruciating pain.

What did he ever do to deserve this?

And what are you thinking, that you would pay for his suffering, for him to be cut into pieces? He is made of flesh and blood, and so are you. No one needs meat. It causes heart disease, cancer, stroke, high blood pressure, diabetes, and obesity.
