

Inspection Report

Saving Wildlife International
P O Box 2626
Malibu, CA 90265

Customer ID: **333064**

Certificate:

Site: 001

Saving Wildlife International

Type: PRELICENSE INSPECTION #1

Date: Mar-06-2015

Covered animals are not to be displayed until a license is secured.

Items to be corrected before licensing can proceed:

Sec. 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors) (a)(1)

The approved written program of veterinary care (PVC) does not include an armadillo, a hedgehog, and an opossum. All animals intended for covered activities should be included in the written program.

The PVC is a written agreement between the exhibitor and the attending veterinarian establishing standards of care for the animals. These species should be included to assure the veterinarian is aware of their presence at the facility and to prescribe a health program for the facility to follow.

The facility should establish and maintain a PVC to include all the regulated animals at the facility.

- * The above items must corrected and pass inspection within 90 days (May 4, 2015) from today.
- * Only two more inspections are allowed within this 90 days to check for corrections.

Exit interview conducted with facility representative.
