2.40 (b) (2) DIRECT NCI

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

There is an older female bear named Honey* that has a large area of thinning hair thru out her lower back. In addition her eyes appear glazed and she has difficulty with her range of movement. Due to the lack of an attending veterinarian s evaluation it is difficult for the facility representative to determine what treatment should be for the older female bear. Facility has noted the issues and should contact the attending veterinarian for evaluation of older female bear. Correct by August 25, 2015

An exit briefing was conducted with facility representative.
