Replace outdated phrases that are harmful to animals with these fun alternatives. Plus, get exclusive idiom posters for your lesson!

The words that we use have the power to influence those around us. Unfortunately, many of us grew up hearing common phrases that perpetuate violence toward animals, such as “kill two birds with one stone,” “beat a dead horse,” and “bring home the bacon.” These old sayings are often passed down in classrooms during lessons on literary devices.

While these phrases may seem harmless, they carry meaning and can send mixed messages to students about the relationship between humans and other animals and can normalize abuse. Teaching students to use animal-friendly language can cultivate a compassionate attitude between humans and other animals and help end the epidemic of animal abuse perpetuated by young people. Try using some of the following fun idioms in your lessons this year:
