

ANIMAL PLACE FOSTER PARENT CERTIFICATE

JILL

BIRTHDAY: 5/16/2018

ARRIVAL TO AP: 5/16/2020

HISTORY:

Jill, along with 1,030 other hens, were raised on an egg farm in Iowa. They lived in crowded cages, stacked on top of each other, in dark and filthy barns. Due to COVID-19, the farm was “depopulating” and allowed us to save 1,000 hens. The challenge was how to get 1,000 birds from Iowa to California! We solved that problem by renting a cargo plane to fly the birds to safety. We drove to Iowa to coordinate the huge rescue. Jill and her friends now have space and freedom to spread their wings, perch, dust bathe and feel the Earth under their feet!

PERSONALITY:

Jill is a little shy but quickly warmed up to our animal caregivers. It is as if she knew we saved her life! During the first couple of nights in their new home, we

teach them to perch. But instead of perching, Jill would crawl onto our laps and cuddle! She gets along with her feathered friends as well and enjoys sun bathing with them.

FAVORITE FOODS:

Jill loves grapes! She also enjoys berries but will do a happy dance for grapes!

FUN CHICKEN FACTS:

Chickens have an excellent sense of time. They understand when it's dinner time and are not afraid to let you know when to feed them! When chickens are happy and cozy, they cuddle up and purr just like cats do! They are the closest living relative to the T. rex! (almost as terrifying)

HOW YOUR GIFT HELPS:

Birds raised for their eggs experience many reproductive health issues because they are bred to lay more than 300 eggs a year! Your gift helps to provide Jill with medical care to keep her healthy and comfortable! Thank you!
