

**NO  
ONE**

**DESERVES  
TO DIE  
THIS WAY**

**Pigs are suffering in your own backyard!**

At a pig farm in British Columbia, eyewitness video documented lame and severely injured pigs, including some with volleyball-size hernias, suffering in dungeon-like conditions. Some were so sick or injured that they couldn't walk, so they endured a prolonged death on the filthy floor.

But local law enforcement didn't file cruelty charges. Instead, they put the people suspected of taking the video on trial.

No living being deserves to live and die in filth, and no one deserves to go to prison for trying to stop it. Do you eat bacon or ham? Please don't.
