|-------------|------------------------------|------------|---|
| | | | <p>At approximately 1330 hours I, REDACTED, observed the following noncompliance. A cow was put into the knocking box and restrained with the head catch. REDACTED, administered an initial stun attempt from a .40 caliber pistol. The head restraint was released, but the attempt was ineffective, as evidenced by the the cow immediately stood back up and turned around in the knock box. REDACTED positioned himself over the cow and delivered immediate and effective corrective actions with the same firearm, which rendered the animal insensible, and it remained so thereafter. I affixed US Reject/Retain tag #B16115089 to the knock box, and notified plant management of the non-compliance and regulatory control action. This NR is linked to NR QSF0714124308N.</p> |
| M9085+V9085 | Snapps Ferry Packing Company | 12/8/2021 | <p>HATS Category VIII Stunning Effectiveness</p> <p>At approximately 1415 hours, while performing HATS verification activities in the slaughter area I, [REDACTED], observed [REDACTED], attempt to stun a cow with a [REDACTED] caliber pistol. The animal was noted to be excitable and vocalizing as it was moved into the knocking box. The initial stun attempt was ineffective as the animal remained standing and continued vocalizing. Jason Southerland, Establishment Owner, retrieved the firearm, and delivered an immediate and effective corrective action stun attempt, which rendered the animal insensible and it remained so thereafter. The knock box was immediately tagged with US Reject/Retain tag # A5434976 and Mr Jason Southerland was notified of the non-compliance.</p> |
| M9085+V9085 | Snapps Ferry Packing Company | 11/29/2021 | <p>HATS Category III-Water and Feed Availability. On 11/29/2021 at approximately 0930 hours while performing ante-mortem inspection at Snapps Ferry Packing Co. in Afton, TN I, REDACTED REDACTED, observed that the trough in pen #2 was empty and 2 cattle did not have access to water. I observed that the trough in pen #REDACTED was empty and 2 hogs and a sheep did not have access to water.</p> <p>REDACTED, REDACTED, was notified of the noncompliance with 9CFR313.2(e).</p> <p>Immediate corrective actions were taken by the establishment to provide water.</p> <p>A similar non-compliance was documented on NR # QSF4808115415N dated 11/15/21.</p> |

| M9085+V9085 | Snapps Ferry Packing Company | 11/15/2021 | <p>HATS Category III-Water and Feed Availability. On 11/15/2021 at approximately 0840 hours while performing ante-mortem inspection at Snapps Ferry Packing Co. in Afton, TN I, REDACTED REDACTED, observed that the trough in pen #2 was empty and 5 cattle did not have access to water.</p> <p>REDACTED, REDACTED, was notified of the noncompliance with 9CFR313.2(e).</p> <p>Immediate corrective actions were taken by the establishment to provide water.</p> |
| M9085+V9085 | Snapps Ferry Packing Company | 9/27/2021 | <p>HATS Category I-Water and Feed Availability. On 09/27/2021 at approximately 0905 hours while performing ante-mortem inspection at Snapps Ferry Packing Co. in Afton, TN I, REDACTED, observed that 5 hogs in pen #3 and 5 lambs in pen #1 did not have access to water. The water troughs in both pens observed to be empty.</p> <p>REDACTED, REDACTED Person, was notified of the noncompliance with 9 CFR 313.2(e).</p> <p>Immediate corrective actions were taken by the establishment to provide water.</p> |
| M9085+V9085 | Snapps Ferry Packing Company | 8/26/2021 | <p>HATS Category VIII Stunning Effectiveness - At approximately 1325, while performing HATS verification activities in the slaughter processing area, REDACTED observed plant personnel REDACTED attempt to stun a hog. REDACTED. REDACTED used a 9mm semiautomatic pistol to stun the animal. The initial stun was ineffective as the animal collapsed to the floor and then stood back up again. REDACTED. REDACTED steadied himself and delivered an immediate and effective corrective action which rendered the animal insensible and it remained so thereafter. REDACTED came to the USDA office and notified me that an ineffective stun had occurred. I (REDACTED) immediately went to the slaughter floor and tagged the knock box with U.S. Rejected/Retained Tag #: REDACTED and notified REDACTED. REDACTED (Owner) of the noncompliance.</p> |
