

# WE DON'T WANT TO GO TO THE IDITAROD. WE JUST WANT THE IDITAROD TO GO.

Dogs used in the Iditarod are no different from those we love and share our homes with, yet they're kept chained to dilapidated wooden boxes or plastic barrels outside in all weather extremes and forced to race until their bodies break down or they even die.

We can celebrate the historic Iditarod Trail and Alaskan huskies without causing dogs to suffer and die.

I'm Alaskan, and I do not support the Iditarod.
