Have you gotten the scoop on delicious vegan ice cream?

Many restaurants and other businesses across Maryland now offer it. And no wonder—the demand for dairy-free products is skyrocketing! More and more people are choosing plant-based ice creams every day for health, environmental, and ethical reasons. Vegan ice cream desserts have no cholesterol and typically have lower saturated fat levels but offer all the same great taste, and by opting for nondairy treats, you can reduce your carbon footprint. Beat the heat this summer by stopping by one of these shops along Maryland's own Nice Cream Trail.
