

University of Massachusetts-Amherst experimenter  
Agnès Lacreuse tortures and kills tiny marmoset  
monkeys in useless menopause experiments.

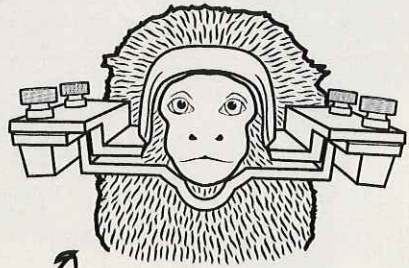

Transported from  
South Africa to  
Florida to UMass

Hand warmers  
to mimic hot  
flashes

Drugs that  
affect hormones  
put in their food

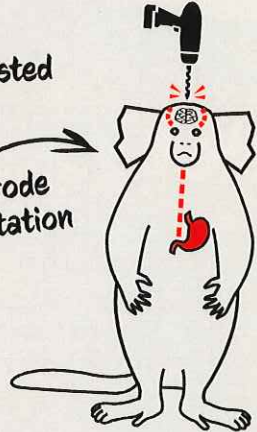

Restrained for hours

Over \$4.4 million wasted

Electrode  
implantation

Killed at the  
end of the  
experiment

Speak up for the marmosets  
today at [PETA.org/Amherst](http://PETA.org/Amherst).
