8501 West Bowles Avenue Suite 1000
Littleton, CO 80123

Customer ID: **6014236**
Certificate: **84-C-0172**
Site: 001
SeaQuest Littleton, LLC

Type: ROUTINE INSPECTION
Date: 17-JUL-2023

3.125(a) Critical

Facilities, general.

The facility installed a newly acquired piece of enrichment in the enclosure of one sugar glider named "Luna". The enrichment involved a platform with four chains that were connected to the top of the enclosure. Per the facility representative, on 05/19/2023, Luna was found with her tail entangled in the chain of this enrichment. The injury that Luna sustained from this entanglement required approximately half her tail to be amputated.

Enrichment and other items in the enclosure that cause entanglement or entrapment can lead to injury or even death. All parts of the enclosure must be constructed of such material and of such strength as appropriate for the animals involved. All parts of the enclosure shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

To be corrected from this day (07/21/2023) forward.

This inspection and exit interview were conducted with a facility representative.
