Type: ROUTINE INSPECTION

Date: 29-SEP-2023

2.1(a)(1)

Requirements and application.

A search for unlicensed activity was initiated by complaint/search. Searched YouTube website pages that have examples of activity covered under the Animal Welfare Act. The individual is exhibiting a non-human primate in videos requiring paid access and selling merchandise with pictures of the individual with the non-human primate. My first visit to this individual occurred on May 1, 2023 at 2:15 pm; I knocked on the door and called out for this individual with no response. The next visit occurred on May 23, 2023 at 12:45 pm. During this second visit to the house, I left a business card with a request for her to call me to discuss my reason for attempting to contact her. On May 30, 2023, a letter and application kit were mailed to the individual by certified mail. On June 26, 2023 I searched online for phone numbers with no success. All numbers I found were assigned to others or disconnected. The final attempt to contact the individual occurred on July 20, 2023 at 1:15 pm. During this attempt I knocked on the door and called out for her with no response. I left a blue book with the highlighted section 2.1 (a) (1) Any person operating or intending to operate as a dealer, exhibitor, or operator of an auction sale, except persons who are exempted from the licensing requirements under paragraph (a)(3) of this section, must have a valid license. As of September 29, 2023 youtube videos are still posting with individual and a non-human primate. This individual, based on the acquired information, is currently operating as an exhibitor and requires a license issued by USDA Animal Care.

Since multiple attempts to make contact with the unlicensed facility were unsuccessful, no inspection or exit interview were able to be conducted with a representative.
