

DID YOU KNOW

you have the right to

refuse to dissect animals

in Hawaii?

It's true! Each year, countless animals (including frogs, cats, and birds) are cruelly killed and then cut up in classrooms across the country—even though humane methods exist. Studies have shown that students who use humane dissection methods perform just as well as—and often better than—students who cut up animals. You don't have to dissect! Explain to your teacher that you won't and that a policy gives you the right to say NO to doing so in Hawaii. This is what it says:

Hawaii Department of Education Regulation 2210.1

Parents/legal guardians may ask in writing that their child be excluded from a specific lesson or activity and be provided an alternate learning activity.
