

DID YOU KNOW

you have the right to

refuse to dissect animals

in Louisiana?

It's true! Each year, countless animals (including frogs, cats, and birds) are cruelly killed and then cut up in classrooms across the country—even though humane methods exist. Studies have shown that students who use humane dissection methods perform just as well as—and often better than—students who cut up animals. You don't have to dissect! Explain to your teacher that you won't and that a law gives you the right to say NO to doing so in Louisiana.

Explain to your teacher that you won't be dissecting and that the 1992 Animal Dissection Resolution (House Concurrent Resolution 153) passed by the Louisiana State Legislature requests that schools give alternatives to students who object to cutting up animals.
