

DID YOU KNOW

you have the right to

refuse to dissect animals

in Saskatchewan?

It's true! Each year, countless animals (including frogs, cats, and birds) are cruelly killed and then cut up in classrooms across the country—even though humane methods exist. Studies have shown that students who use humane dissection methods perform just as well as—and often better than—students who cut up animals. You don't have to dissect! Explain to your teacher that you won't and that a curriculum guide gives you the right to say NO to doing so in Saskatchewan. This is what it says:

Saskatchewan Ministry of Education Biology 30 Curriculum (2023)

Compare the anatomical structures and functions of organisms using microscopy, simulations and/or dissections where appropriate.
