

DID YOU KNOW

you have the right to

refuse to dissect animals

in Utah?

It's true! Each year, countless animals (including frogs, cats, and birds) are cruelly killed and then cut up in classrooms across the country—even though humane methods exist. Studies have shown that students who use humane dissection methods perform just as well as—and often better than—students who cut up animals. You don't have to dissect! Explain to your teacher that you won't and that a law gives you the right to say NO to doing so in Utah. This is what it says:

Utah R277-105-5

A. A parent, a legal guardian of a student, or a secondary student may request a waiver of participation in any portion of the curriculum or school activity which the requesting party believes to be an infringement upon a right of conscience or the exercise of religious freedom.
