**2024-10-09**

Today at 8:04 a.m. I observed a Windy Meadows employee kicking a bird very aggressively from where I stood in the processing room. I immediately stopped the line and notified manager REDACTED he went and spoke with the man and production was continued. At approximately 11:30 a.m. the same employee was seen doing the same act. I stopped the line and notified REDACTED again. He went to the kill floor to speak with the employee as I called Dr. REDACTED REDACTED and owner REDACTED have went over information about Humane Handling with employees that work in the kill room.
