2.31(e)(2)

Institutional Animal Care and Use Committee (IACUC).

Some IACUC approved protocols to conduct activities involving animals did not include a rationale for the appropriateness of numbers of animals used. Proposals #177, #186, #199, and #202 have a rationale for why the use of animals is necessary but do not have a rationale for the total number of animals to be used. The rationale for the proposed number of animals to be used enables the IACUC to evaluate the suitability of the number of animals used for the proposal. Correct by ensuring that IACUC-approved proposals/protocols contain a rationale for the number of animals to be used. To be corrected by: March 1, 2026

This inspection and exit interview were conducted with the Attending Veterinarian.
